Notice of Change of Paint for YA Pack/YP Pack

Regarding the painting of the above-mentioned standard hydraulic units, we will be making changes as described below.

■ Applicable Models

Name	Model Number
Standard Hydraulic Power Unit YA Pack	YA10/16/22/37
Standard Hydraulic Power Unit YP Pack	YP10/16/22/37

★This change includes "repeat units" (continuous build-to-order units) of the hydraulic units listed above.

■ Details of Change

Model		Before the Change	After the Change
YA YP Pack	Standard Products	The motor and phosphate-coated components such as blocks, pumps, and piping are unpainted. Piping without phosphate coating is finished with black paint. Note: The suction piping of the YP Pack is finished with black paint.	No Change (Same as before)
	Option: PT★	Painted in the specified color	No Change (Same as before)
	Option: Other than PT	Painted in the standard color	Same as the standard products. Optional components such as valves and blocks with phosphate coating are left unpainted. Piping without phosphate coating is painted black.

★For the PT option (external paint color change), all components will be painted in the specified color as before.

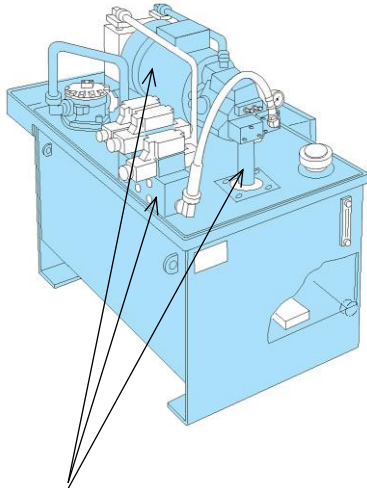

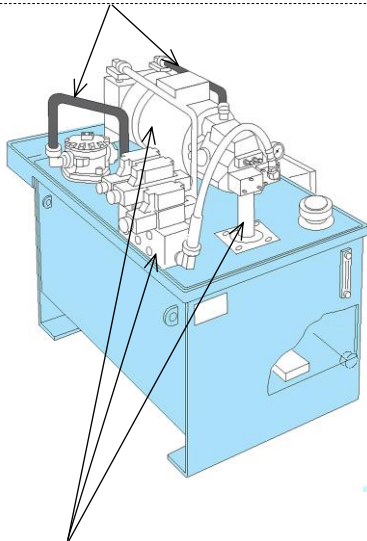

Please indicate the PT option even if you wish to paint all units in the standard color.

■ Timing of Release

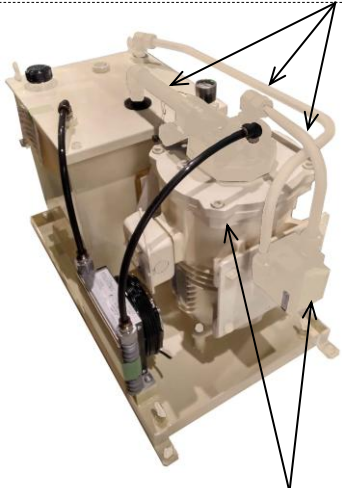

Effective from shipments in March 2026

■ Comparison of Old vs. New (Paint Visualization)

<YA Pack> ※For Option 「01/03M※」

Before the Change	After the Change
 <p>Even when Option 'PT' is not selected, the entire unit was previously painted in the standard color, the same as with Option 'PT'.</p>	<p>Non-phosphate-coated piping is painted black.</p>  <p>Phosphate-coated areas are unpainted (blocks, valves, pumps, piping, etc.)</p>

<YP Pack> ※For Option 「01M※」

Before the Change	After the Change
<p>Even when Option 'PT' is not selected, the entire unit was previously painted in the standard color, the same as with Option 'PT'.</p>  <p>Even when Option 'PT' is not selected, the entire unit was previously painted in the standard color, the same as with Option 'PT'.</p>	<p>All piping is painted black, regardless of phosphate coating.</p>  <p>Phosphate-coated areas are unpainted (blocks, valves, pump covers, etc.)</p>
